

## DERMAPLANING

Removes Soft Facial Hair | Enhances Product Penetration | Removes Dead Skin Cells | Reduce Appearance of Acne Scars | Diminish Look of Lines | Ultra-Smooth, Fresh, and Glowing Skin

A physical form of exfoliation using a surgical, sterile blade to gently shave the skin's surface, removing the top layer of dead skin with added benefits of removing fine vellus hair, leaving the skin ultra-smooth, fresh, and with a bright glow.

			Pressotherapy 40 min	R390

## HIGH-FREQUENCY TREATMENT

Improves Blemished Skin | Helps to dry Oily Skin | Reduces Pores | Reduces Bacteria that leads to Acne and Breakouts | Calms and Soothes skin

High Frequency over gauze is used to treat congestion, acne, and oily skin. When the probe comes into contact with the skin, ozone is created which has drying, healing, and anti-bacterial properties. This treatment helps improve acne by destroying bacteria, decreases greasy skin, calms and soothes the nerve endings as well as tightens the pores to reduce sebum output.

Area	Price
High Frequency	R200
Add on Extras:	
Purifying Mask	R100
Alginate Mask	R100
Pressotherapy 20 min	R290
