

DIAMOND TIP

MICRODERMABRASION

Resurface & Regenerate Skin | Clear Dead Skin Cells | Reduce Congestion & Enhance Cell Renewal

A form of mechanical exfoliation using diamond tip technology which allows the controlled penetration into various levels of the skin, leaving you with a polished, smooth, shiny and healthy looking skin due to the removal of dead cells. Treats acne scars, age spots, blackheads, lines and wrinkles, open pores, sun-damaged skin, stretchmarks and many more.
